A TRUE ARTIST, Jeffery Roberts brings an eclectic background in architecture, interior design, fashion and fine arts to his work with Jeffery Roberts Design, which he established in 1984.

"Our philosophy is to provide design services encompassing an entire sphere of interior and exterior design," Roberts explained. From architecture and design to landscaping and furnishings, Roberts and his team bring excellence to every project, "from the initial concept to putting the key in the front door," he shared.

Stimulated by the ability to reinvent materials into artistic, functional pieces, Roberts finds joy in re-energizing things that have been discarded to give them new significance. Driven by his world travels and experiences and

an innate desire to exceed client expectations, Roberts also finds inspiration in the beauty of West Michigan. Recent work ranges from a beautiful lakefront residence in Holland to a space atop a multi-level building in downtown Grand Rapids.

"Part of what makes Jeffery Roberts Design successful is that I have a really incredible team," Roberts said. "Every single one of them in their own realm is totally passionate about what they do."

With over 32 years in the industry, Roberts continues to exceed expectations with his innovative and artistic inspirations. He soon plans to introduce a lifestyle collection of his furniture designs. Get inspired by visiting jefferyroberts.com.
